

Bath/Rainshower System
6920-BD-80CP

INTRODUCTION:

JUSTIME made some transformation in oval to increase a sense of modernity, fitting the fashion of this generation, and adding elegant style into 6920 Series.

The innovative hanging design of hand shower is not only pretty but also functional. The round hole in the middle of body is used to hang the bracket on slide bar. Users can also hook it with fingers while taking a shower.

JUSTIME created the ultra slim of rain showerhead. The integration of thin body and water nozzle not only prevents from falling off, but also shortens the assembling time and increases productivity.

unit:mm
